nosyu.kr jy.bak@skku.edu

Research Interests

My research interests lie in the intersection of machine learning and natural language processing. Specifically, I focus on utilizing Bayesian models and artificial neural networks to simulate human behaviors and uncover latent patterns within large datasets, such as conversational corpora.[1]

Employment

Assistant Professor Sungkyunkwan University (SKKU)
Suwon, South Korea Sep 2020 - Present
I am working as a professor in the College of Computing and Informatics at Sungkyunkwan University. I am the leader of the Human Language Intelligence Lab[2].

Junior Data Scientist United Nations Global Pulse Lab
Jakarta, Indonesia June 2016 - Aug 2016
I interned with Dr. Jonggun Lee in the United Nations Global Pulse Lab Jakarta. I developed a topic model based methodology for expanding relevant keywords for specific subjects to identify related tweets in Twitter. This work is published at ICML 2017 workshop [36].

Research Intern Microsoft Research Asia
Beijing, China Sep 2013 - Feb 2014
I interned with Dr. Chin-Yew Lin in the Knowledge Mining group at Microsoft Research Asia. I developed a topic model to identify self-disclosure in Twitter conversations. This work is published at EMNLP 2014 as a full paper [38].

Education

KAIST, Ph.D., School of Computing, Mar 2013 - Aug 2020
- Dissertation: Speaker oriented Conversation Model and its Evaluation [29]
- Dissertation committee: Prof. Alice Oh, Dr. Chin-Yew Lin, Prof. Kee-Eung Kim, Prof. Meeyoung Cha, and Prof. Sung-Hyon Myaeng
- Outstanding PhD Thesis Award

KAIST, M.S., Computer Science, Feb 2011 - Feb 2013
- GPA: 3.98/4.30
- Thesis: Distributed Online Learning for Topic Models [39]
- Thesis committee: Prof. Alice Oh, Prof. Sung-Eui Yoon, and Prof. Sung-Hyon Myaeng

Sungkyunkwan University, B.S., Computer Engineering, Mar 2004 - Feb 2011
- GPA: 4.45/4.50
- Graduation project: On-Line LEcture Allocation[3], Worked with Byung Il Woo,
- Best Project Award
